

Copper Wire Coil Cutter

This unit is designed to cut motors and copper wire coils of refrigerators, washing machines and other appliances.

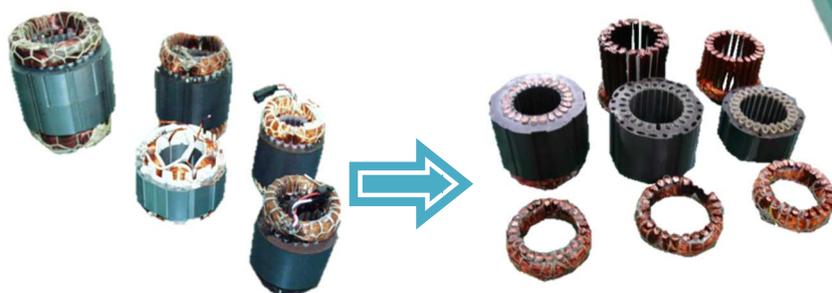

■ Features

- The cut height can be arbitrarily selected.
- It is easily operable, and safety is assured.
- It uses of the nippers assures flat cut surfaces.
- Cutting is done by deforming the composition, and almost no cut chips are left.

■ General Specifications

Power supply	AC200V, three-phase, 2.5K VA(Japan) It depends on the country.
Hydraulic Power Source	MAX15MPa (oil capacity : 10 ℓ)
Cutting Size	Core Inner diameter : φ60-80
Cutting Time	20-30 seconds (excluding connecting and disconnecting time)
Chucking Method	Two-way
External Dimension	750mm(W)、1025mm(D) 1720mm(H)
Weight	450 Kg

Japanese Patent Obtained : No. 5392947
