

匠 TAKUMI+ PLUS

MADE IN JAPAN

WAX INJECTOR INTEGRATION

Serve with technology

- **New Injection Valve**
- **Easy parameter setting with data logging**
- **Pressure compensation function in the tank**
- **Easy clamp point adjustment & Easy height adjustment**
- **Clamp Lock System (Patented) : Less burrs and weight changes**

Power supply	Japan and US :single phase AC 100/ 115 V±10%, 50/60 Hz foreign countries : single phase AC 230 V±10%, 50/60Hz
Air supply source	0.40~0.70 MPa
Rubber Mold size(Max)	90(W)× 120(D)×60(H) *None acrylic plate
Temperature setting range	40.0~99.0 °C (103~193 °F)
Injection pressure setting range	10~300kPa
Clamp pressure setting range	30~350kPa
Wax capacity	Around 3 kg
Memory	0~3,000 memories
External dimension	450 (W)×310 (D)×450 (H) mm
Weight	around 27 kg
